PROJECTS

Real-Time Collaboration Tool – React, WebSockets, Node.js

Built a Slack-like chat app with real-time messaging, presence tracking, and notifications.

E-Commerce Platform – React, Next.js, Stripe

Designed and developed a full-featured online store with secure checkout and admin dashboard.

AI-Driven Resume Builder – Next.js, GPT API

Launched SaaS that helps job seekers auto-generate tailored resumes; 5000+ paying users.

SKILLS

Front-End

React	Next.js	Vue.js	Redux
Tailwind CSS	Webpack	Vite	

Back-End

Node.js	Express.js	Python
PostgreSQL	MongoDB	GraphQL

REST APIs

Languages

HTML5	CSS3	JavaScript	
TypeScript	PHP	Python	Go
SQL	GraphQL		

STRENGTHS

End-to-End Development

Independently design, build, and deploy complete web applications — from front-end interfaces to back-end logic, APIs, and databases.

Versatility Across the Stack

Fluency in multiple technologies allows you to adapt quickly to project needs and tech stacks.

STRENGTHS

Strong Front-End Expertise

Craft responsive, interactive, and accessible UIs using modern tools like React, TypeScript, Tailwind, and component libraries.

Cross-Team Communication

Communicate effectively with designers, front-end specialists, and backend/data engineers — a key asset for agile development.
